Just thought I would check how many FTs UNC has shot so far this year compared to their opponents. I did this because I know Hansbrough will live at the line when we play them. He averages shooting over 11 FTs per game. For the team, they have shot 165 to their opponents 85. One game they shot 46!!!! If PP or JC get in early foul trouble, the game could be over by halftime. We usually play them good even when we lose, but we are way outmatched talent-wise this year. Mike

We usually play them good even when we lose, but we are way outmatched talent-wise this year. Mike Just an addendum to my post. UKs numbers for FTs is as follows: UK 69, opponents 86 There's been only one game where UK shot more than the opponent. Yikes. Mike

We usually play them good even when we lose, but we are way outmatched talent-wise this year. Mike So, Tyler has replaced Precious JJ Reddick as the ACC's touch me not golden boy this season. I've been practicing hitting the mute button so I'll prepared for Billy PACCKER's biased call of the UK/UNC game.
