
commander keen Commander Keen ???

Posted by Sparky - 2010/02/22 19:17

Are there going to be any new Commander Keen games? I think they could improve the graphics to svga, and sound effects to 16-bit wavetable, and have a good game.

} Are there going to be any new Commander Keen games? I think they could } improve the graphics to svga, and sound effects to 16-bit wavetable, and } have a good game. This is from the Apogee FAQ v3.0 by Sam Stoddard <s...@kepler.unh.edu: If you played Keen 5, there was a screen that said something to the effect of Join us in December 1992 for the greatest Keen adventure yet. There was a picture of Keen smiling, with a Santa Claus hat on. At the time, id Software was intending to do a third series of Commander Keen, tentatively entitled Commander Keen: The Universe is Toast. However, other projects came up (Wolfenstein 3D, Spear of Destiny, and later, Doom). At this time, there is no development }going on in the Commander Keen department. There will probably be more Commander Keen games by Apogee Software. However, even if the work were to commence on the game TODAY, it would still take about twelve months to see the light of day. The earliest development could start }on this game would be late in 1995, so I would not look for any new }Commander Keen games before the third quarter of 1996. The FAQ is at: <ftp://ftp.uml.edu/msdos/games/apogee/faq/apogee.faq> (& mirrors) <ftp://wcl-l.bham.ac.uk/pub/djh/faqs/Apogee.faq>
