This is from another group: - 14 tons of spilled Oreo cookies snarl traffic MORRIS - May 19, 2008 Traffic's backed up in northern Illinois after a trailer loaded with 14 tons of double-stuffed Oreos overturned, spilling boxes of cookies into the median and roadway. See, your doctor was right. Oreos ARE bad for you, especially if you're driving behind a trailer loaded with them... :-) Jay My son had an Oreos accident... He works at McDonald's and somehow managed to pull all the containers of goodies that go into a McFlurry (M&M's, choc-mint bits and crushed Oreos!) onto himself and the floor in full view of customers.
